

No Need to buy a new phone! Bring Your Own Phone (BYOP)

- Just add a Solavei SIM card to an **unlocked GSM phone**—whether it's the latest model or an old favorite
- Get the value of our \$49 Nationwide 4G Unlimited Voice, Text and Data rate plan when you bring your own phone
- Pay no out-of-pocket costs for a new phone

It's as easy as 1-2-3 to activate...

Step 1:

Check your phone (Coming soon!)

Follow this simple process to see if your phone will work on the Solavei mobile network.

- Get your IMEI number
 - Type *#06# into your phone to get your phone IMEI – just as if you were making a phone call.
 - If no number appears, your phone is not compatible.
- Enter your IMEI into the Prequalify Your Phone tool.
(During the Solavei Mobile Service enrollment process)
- A notification will let you know if your phone is compatible with the Solavei service.

Step 2:

Complete sign-up process

- Solavei Mobile Service provides 4G Nationwide Unlimited Voice, Text, and Data for \$49 a month. For details of the mobile service plan, see [mobile service overview](#).
- Purchase your Solavei SIM Card for \$29 and pay your one-time Membership Enrollment Fee of \$49.

Step 3:

Receive your SIM Card

We'll send you the appropriate ready-to-use SIM card for your device in the mail. Then follow the easy steps provided in the sign-up confirmation email.

Solavei Compatible Phones

Approved Phones

Approved **unlocked GSM phones** can take full advantage of Solavei's products and services. With an approved phone, you'll enjoy unlimited voice, text, and data at 3G/4G speeds (depending on phone and coverage)—plus, you will be able to download the Solavei mobile application.

Solavei-ready approved phones include:

- | | |
|---|---|
| <ul style="list-style-type: none">• HTC One S (Ville)• Samsung Galaxy S 4G• Huawei Comet• HTC Wildfire S• Samsung Galaxy• HTC Sensation• ZTE Muse• Samsung Exhibit II 4G• T-Mobile/HTC myTouch Slide 4G• Samsung T959 Vibrant (Galaxy S)• Samsung Exhibit 4G• T-Mobile/HTC myTouch 4G• Google Nexus S• Samsung Dart• T-Mobile/HTC myTouch 3G / Slide | <ul style="list-style-type: none">• Google Galaxy Nexus• Motorola Defy• T-Mobile/HTC myTouch 3G / Magic• Samsung Sidekick• Motorola Cliq 2• T-Mobile/HTC G2• Samsung Gravity Smart• LG Optimus T• HTC Amaze• Samsung Galaxy S II T989• LG G2x / Optimus 2x• HTC 3G LE & 1.2• Samsung Galaxy S Blaze T769• LG DoublePlay (Flip 2) |

Functional Phones

Functional **unlocked GSM phones** do not provide our members with the exceptional experience we have designed. We recommend that you upgrade your phone to take advantage of unlimited voice, text, and data at up to 3G/4G speeds (depending on phone and network availability). Functional phones will not have access to the Solavei mobile application, and members will need to access the Solavei Community website via computer.

Functional phones include:

- **HTC Radar**
- **Motorola Cliq**
- **Samsung Behold II**
- **T-Mobile Sidekick**
- **Samsung Gravity II**
- **Sony Ericsson Equinox**

And many more...

Usable Phones

Usable **unlocked GSM phones** do not provide our members with the exceptional experience we strive for. While you'll get voice and text, data service might be delivered at slower (2G/EDGE) speeds, depending on phone and network availability. Usable phones will not have access to the Solavei mobile application, and members will need to access the Solavei Community website via computer.

Usable phones include:

- iPhone (GSM only)
- HTC One X
- Samsung Captivate
- Sony Ericsson Xperia
- Samsung Galaxy
- Motorola Atrix
- HTC HD2
- HD7

For additional information see [Use of the iPhone on Solavei Network](#)

Not Supported

These phones and tablets will not work with Solavei Mobile Service and cannot be used on our network.

Devices not supported include:

- **CDMA and iDEN phones from carriers like Verizon, Sprint or Boost Mobile**
- **BlackBerry devices**
- **Tablets, iPads**
